SUMMARY

Frontend Developer with 1 years of hands-on experience in building responsive web applications using JavaScript and React. Skilled in developing reusable components, managing hooks, and designing scalable project structures. Actively improves workflows by integrating automation and AI-driven solutions. Delivered an in-depth React Frontend Development program at ATL Academy. Currently focused on expanding technical scope towards Full Stack Development.

WORK EXPERIENCE

ATL Academy
Freelancer Intern leader   **January 2023 - June 2025**

Baku, Azerbaijan (Industry & Innovation Vocational Center DUAL Practice)

- Collaborated with a team of 6 interns, contributing to efficient task execution and coordination and resulting in 25% faster task delivery within the team.
- Promoted to Freelancer Intern Team Lead after consistent performance and leadership contribution, selected from a pool of 6 based on weekly task accuracy over 95%.
- Increased team output and client satisfaction by approximately 60% according to weekly feedback and delivery metrics.
- Used Excel, Word, and PowerPoint with AI to handle complex daily tasks with speed and accuracy, completing an average of 2-5 tasks per day with 95% accuracy.
- Implemented automation in reporting and documentation, achieving 40% time savings and 60% productivity boost by reducing task duration from 30 minutes to 10–15 minutes.
- Researched and applied AI-powered automation tools and process shortcuts to improve workflow efficiency, leading to 3× faster execution in repetitive documentation tasks.
- Declined the scholarship and achieved ATL Academy's full React Frontend Development program with 100% tuition waived in recognition of my work, earning the certificate.
- Executed the course in 6 months with full tuition waived in exchange for demonstrated work contribution, attending 6 hours of classes weekly plus 6+ hours of practical work and collaborating with frontend team members on projects.

EDUCATION

ICT DUAL Vocational Education   **September 2022 - June 2025**
Baku State Vocational Education Center for Industry and Innovation

- Specialized in Information and Communication Technologies
- Completed DUAL practice at ATL Academy (3 years hands-on experience)

KEY SKILLS

Front-End Development:
HTML5, CSS3, SASS, SCSS, Bootstrap, Tailwind, Material UI, Responsive Design, JavaScript, TypeScript, OOP, React.js, Context API, Redux Toolkit, Hook Management, Modular & Scalable Folder Structures

Backend & Databases:
Node.js, RESTful APIs, CRUD Operations, JWT (JSON Web Tokens), MsSQL, MySQL

Tools & Version Control:
Git, GitHub, NPM, Yarn, Webpack, Figma (UI/UX Design Tools), Debugging

Soft Skills & Professional Qualities:
- Exceptional Problem-Solving Skills
- Manages multiple tasks and meets deadlines effectively
- Learns and applies new technologies rapidly in practical projects
- Delivers accurate and thorough work in development tasks
- Takes initiative
- Effective Corporate Communications
- Collaborative Teamwork

Personality (MBTI) & Personal Traits
- INFJ + ENTJ blend – intuitive, strategic, empathetic, imaginative logic
- Enneagram 5w4 – deep-thinking investigator with emotional and creative depth
- Strong analytical & emotional intelligence
- Self-driven, curious, and focused on personal growth

CERTIFICATES

Frontend Development (React) – Certified　　　　**January 2024 – January 2025**
ATL Academy
- Developed solid skills in modern frontend technologies, focusing on React.js, JavaScript, Context-based state management, and responsive UI design.
- Gained hands-on experience with reusable components, custom hook management, and scalable folder structures.
- Completed under real-world conditions by balancing internship responsibilities with an intensive course schedule.

Final project: AITstats.netlify.com - Developed entirely using React.js and JSON Server, where I created my own local REST API to handle full CRUD operations.
